

Hydro-Klean is an old hand at helping manufacturing facilities. With industrial cleaning and waste management services, your solution is only a phone call away. We understand that manufacturing facilities need to manage the cost of out-sourced services and maintenance downtime. These elements directly affect the bottom line of your business. You can count on Hydro-Klean to handle your out-sourced services for cleaning and waste management safely and effectively.

Hydro-Klean has the experience you need to get your projects handled on time and on budget. With a client list that includes some of the largest Midwest manufacturers, Hydro-Klean has a recognized reputation of being the best in the business.

Manufacturing Services

Maintenance shutdowns, turnarounds, outages, and downdays diminish profits. Non-scheduled emergency services are even more critical as your labor resources also become unexpectedly idle. Hydro-Klean understands your need to put a plant back in service in the least amount of time. You can trust Hydro-Klean with this important responsibility.

With Hydro-Klean, you get more than people and machines. You get true project management. The professional Hydro-Klean service staff will manage your out-sourced services efficiently by planning and executing your projects. They will track the data from past projects to facilitate planning resources for future projects. It makes your job simple. Just call Hydro-Klean and explain your needs.

Whether it's a scheduled project or an emergency at any hour, Hydro-Klean is your one-stop shop to handle all your out-sourced industrial cleaning and waste management needs including:

- Heat Exchanger and Condenser Tube Cleaning
- Pits, Surfaces and Tanks
- Coating Removal
- Building structures
- Process equipment
- Exhaust stacks
- Preparation equipment for metal finishing
- Paint booths and grating
- Conveyors
- Industrial waste containment, analysis, transportation and disposal
- Industrial pretreatment plant cleaning
- Process sewer cleaning and video inspection
- Trenchless (no-dig) pipe repair below grade and plant floors
- Industrial vacuum for pneumatic conveyance of materials or wastes
